

BELLEVILLE

Data sheet

Conceived as an homage to the City of Light, the Paname collection features 4 families of luminaire, each designed around a particular grid motif. The simple, rectilinear grid of Belleville evokes the contemporary style of this once working class suburb that is now the temple to Parisian street art. Available in carbon black or all stainless steel, this impressive industrial-style suspended luminaire provides the 360° lighting coverage ideal for maximising the sense of space in a loft. A white internal film diffuses the LED light perfectly to complement the uncompromisingly modern design of its multi-perforated grid.

This luminaire is supplied ready to install, fully equipped with its cable, light source and wall cable plate. All our luminaires are manufactured, assembled and packaged at our Châtillon-sur-Saône factory plant in the Vosges region of France.

Characteristics

CLI - 220V - LED module 56W 2700K
 Diameter : 133mm
 Length : 1300mm
 Weight : 5,8kg
 Installation : Wall / Ceiling / Pendant

Protection sign: IP68
 Equipped with cable and cable plate kit
 Suspension ropes : 2 x 3m included
 Cable : 3m
 Design : Normal Studio

Finishes

 Stainless steel

Color :

 Coal RAL7021

Materials

Ends caps & fixing straps : Stainless steel 316L or stainless steel 316L laquered
 Body : Coextruded PMMA/PO
 Louvre : Stainless steel or Steel laquered
 Braided tinned copper cable

Gaskets : EPDM

Options

 Dimmable by smartphone via Casambi app or by traditional ON-OFF switch
